### STARTUP@TAIPEI OFFICE

#### Introduction

We help entrepreneurs start a business and support startups to grow in Taipei.

#### What We Do

The office provides comprehensive entrepreneurial information, awards and subsidy referral, and one-on-one counseling services. The office compiles entrepreneurial resources from all departments in Taipei City government, and has contact windows with all relative departments, so entrepreneurs can easily and quickly receive the information they need. We also hold an annual festival, "Taipei Int'l Startup Week," which shows the energy of Taipei's startup ecosystem with 5-day of events, including Global Linkage Forum, Demo Day, Welcome Party, Meet Taipei Expo, etc.

#### Potential Partners

We would like to build a platform for Taipei-Netherlands' startups, that can exchange resources and expand Taiwan-European's market.

## SOTERIA BIOTECH

#### Introduction

Soteria's specialties are in fluid dynamics related calculation, medical imaging and cloud computation where it has been applied to Obstructive Sleep Apnea (OSA).

#### Product

Soteria OA is a solution technology that works with a combination of medical image analysis (CT and Cone Beam CT), 3D reconstruction, and Computational Fluid Dynamics (CFD). We currently apply this technology in the analysis of the upper airway flow field (velocity, pressure, and resistance) focusing on Obstructive Sleep Apnea (OSA) related issues.

#### Potential Partners

We are aiming to reach the demand of our end users by leveling our software solution to the highest level, for this we are focusing on finding partners from the field of Oral Appliances and Sleep Medicine.

## **TRADE WIND BIOTECH**

#### Introduction

<sup>©</sup>Trade Wind Biotech, TWBIO<sub>J</sub> is a synthetic biotechnology company, who focuses on the development of "Next Generation Probiotics." We provide a faster, more economical and sustainable way to effectively produce valuable products. That could be applied in bio-pharmapheuticals for healthcare, cosmetic, feed and food additives and target therapy. We learn from nature to predict the viability of biological solutions for the sustainability of the world.

#### Product

Our first product is the natural super antioxidant Astaxanthin, which has high global markets forecast of 3 billion in 2020. The short term milestone is to replace the chemical synthesis Astaxanthin product for feed additive market, especially the salmon farming. Long term targets to the human healthcare for Alzheimer disease.

#### Potential Partners

We are looking for buyers or potential partners for food and feed additive companies, such as DSM, Hendrix UTD, Nutreco N.V., Agrifirm, De Heus, ForFarmers and Boerenbond Deurne.

## APPLATO

#### Introduction

We help people eat healthy, eat smart.

#### Product

Applato is a restaurant platform to link medical and nutritional needs together and provide personalized proactive dietary solution to help people eat healthy, eat smart to solve meal prep problems. Its advantage is to transform comprehensive user information to the focus on dietary behavior modification with algorithm developed by Applato team.

#### **Potential Partners**

We would reach strategic partners like healthcare facility, elderly community, meal delivery company. Buurtzorg and Humanitas are two potential partners that focus on elderly community with meal delivery service. Applato will provide personalized meal recommendation and help residents receive comprehensive care.
